## 3. DECLARATION OF CONTENTS

#### **Chemical content**

Enter chemical content for the whole article. The concentration is calculated at component level according to the principle of "once an article always an article".

Is there a safety data sheet for the article?			Is there classification of the artic	le?	
Not applicable			Not applicable		
Enter which version of the candidate list has been used (Year, month, day)		For complex products, the concentration of included substances has been calculated at:			
			component level		
The article is covered	by the RoHS Directive:		Enter the weight of the article:		
No			2.43 kg/m2		
Enter how large a prop ]:	portion of the material content h	as been declared [%			
99,9					
If the article contains n	anomaterials deliberately adde	d to obtain a particular fu	unction, enter these here:		
Non					
Is the article registered	d in Basta?		Enter the proportion of volatile organic substances [g/litre], applies only to sealants, paints, varnishes and adhesives:		
Yes					
Other information:

## Renewable material Enter proportion of renewable material in the article (short cycle, less Enter proportion of renewable material in the article (long cycle, more than than 10 years): 10 years): Included biobased raw material is tested according to ASTM test method D6866: Is there supporting documentation for the raw materials for third-party certified system for control of origin, raw material extraction, manufacturing or recycling processes or similar (for example BES 6001:2008, EMS certificate, USGBC Program)? If yes, enter system(s): Wood raw materials Wood raw materials are included Included wood raw material is certified How large a proportion is certified [%]? What certification system has been used (for example FSC, CSA, SFI with CoC, PEFC)? Reference number: Enter logging country for the wood raw material and that following criteria have been met. Country of logging: Does not contain type of wood or origin in CITES appendix of endangered species The timber has been logged legally and there is certification for this 5. ENVIRONMENTAL IMPACT Environmental impact during life cycle of the article, production phase module A1-A3 under EN Has environmental product declaration been drawn up according to EN 15804 or ISO 14025 for the article? These product-specific rules, known as PCR, have been applied: Registration number / ID number for EPD: Floor coverings, 07.2014 / EN 15804 EPD-EGE-20190078-CCC1-EN-58AAFD12 Climate impact (GWP100) [kg CO2-eq]: Ozone depletion (ODP) [kg CFC 11-eq]: 4,95 1,17E-08 Acidification (AP) [kg SO2-eq]: Ground-level ozone (POCP) [kg ethene-eq]: 0,0107 0,00098 Eutrophication (EP) [kg (PO4)-3-eq]: Renewable energy [MJ]: 0,00211 46,8 Non-renewable energy [MJ]: If calculation has been made in Green Guide, enter which rating: If there is environmental product declaration or other life cycle assessment, describe how the environmental impact of the article is taken into account from a life cycle perspective: Product stage A1-A3.

Used for environmental documentation and improvement of the environmental impact.

#### 6. DISTRIBUTION

#### Distribution of finished article

Does the supplier apply any system with multiple-use packaging for the Does the supplier use Retursystem Byggpall? article? No No Does the supplier take back packaging for the article? Is the supplier affiliated to a system for product responsibility for packaging? No No If yes, which packaging and which system? Other information: 7. CONSTRUCTION PHASE **Construction phase** Does the article make special requirements in storage? Yes Specify Keep dry. Does the article make special requirements for surrounding building products? Yes Specify Surfaces must be smooth and dry Other information:

Other information.

See Installation Guide for the product at www.ege.dk.

## 8. USE PHASE

#### Use phase

9.

Does the article make requirements for input materials for operation and maintenance?	
No No	
Specify:	
Does the article require supply of energy during operation?	
No	
Specify:	
Estimated technical service life for the article:	
25-30 years	
Comment:	
Is there energy labelling under the Energy Labelling Directive (2010/30/EU) for the article?	If yes, enter labelling (G to A, A+, A++, A+++):
No	
Other information:	
DEMOLITION	
Demolition	
Is the article prepared for disassembly (dismantling)?	
Yes	
Specify:	
Specify:  THe modular adhesive makes it easy to dismantle the tiles from the floor	or.
	or.
THe modular adhesive makes it easy to dismantle the tiles from the floor	or.
THe modular adhesive makes it easy to dismantle the tiles from the floor Does the article require special measures for protection of health and environment in demolition/disassembly?	or.
THe modular adhesive makes it easy to dismantle the tiles from the floor Does the article require special measures for protection of health and environment in demolition/disassembly?  No	or.
THe modular adhesive makes it easy to dismantle the tiles from the floor Does the article require special measures for protection of health and environment in demolition/disassembly?  No	or.

## **10. WASTE MANAGEMENT**

#### **Delivered article**

Is the supplied article covered by the Ordinance (2014:1075) on producer responsibility for electrical and electronic products when it becomes waste?
No
Is reuse possible for the whole or parts of the article when it becomes waste?
Yes
Specify:
It is possible to reuse the tiles.
Is material recovery possible for the whole or parts of the article when it becomes waste?
Yes
Specify:
The material can be recovered for new backing.
Is energy recovery possible for the whole or parts of the article when it becomes waste?
Yes
Specify:
Thermal Recycling
Does the supplier have restrictions and recommendation for re-use, material or energy recovery or landfilling?
Yes
Specify:
Ege Carpets recommend to check if there is any disposal for national recycling. In many countries local recyclers can either reuse or recycle carpets and carpet tiles. These companys can usually be found bydoing a quick search online.
Waste code for the delivered article when it becomes waste
04 - Avfall från läder-, päls- och textilindustri
When the supplied article becomes waste, is it classified as hazardous waste?
No
Mounted article
Is the mounted article classified as hazardous waste?
No
Other information

## 11. INDOOR ENVIRONMENT

# Indoor environment The article is not intended

The article is not intended for indoor use				
The article does not produce any emissions	The article does not produce any emissions			
Emissions from the article not measured				
Does the article have a critical moisture state?				
Yes				
If yes, state what:				
Max. 75 % moisture content in indoor air and max.	. 90 % in floor			
Noise	Electrical field	Magnetic fields		
Can the article give rise to own noise?	Can the article give rise to electrical fields?	Can the article give rise to magnetic fields?		
No	No	No
